## WHEN PREPARING DOCUMENTATION FOR REVIEW

### KEEP IN MIND

- **Readability** - use clear, concise statements directly addressing each criterion including an explanation of how the evidence submitted demonstrates the criterion is met.
- **Accessibility** - use hyperlinks to key documents within the submission or information available on websites.
- **Searchability** - supporting evidence (for example, policies, procedures, timetables, reports, meeting minutes etc.) referenced in the text should be included in appendices and be easily found by using search tools, bookmarks or accurately referenced pages.

### AVOID

- **Duplication** - there is no need for duplication. When supporting evidence for a criterion is the same for different parts of the submission, indicate this in the response and cross reference all relevant documentation.
- **Assumptions** - do not assume the Assessment Team will have prior knowledge of the course(s) or information submitted previously. The submission is a point in time self-assessment and the aim of an accreditation cycle is to gather evidence which helps determine if the courses meet all the Accreditation Standards at the time of the visit.

Applications ('Request for Accreditation') is submitted [online](#) ([accreditation.wfsf.org](http://accreditation.wfsf.org)) or a manually completion of this form can be submitted via email to [accreditation@wfsf.org](mailto:accreditation@wfsf.org)
